

Brierley CE (VC) Primary

PE and Sport Grant 2017 - 18 review

The PE and Sport grant is devolved funding from central government. This funding must be used to fund improvements to the provision of PE and sport for the benefit of pupils aged 5 – 11 years old, developing and promoting healthy lifestyles amongst all pupils.

The PE and Sport grant at Brierley for the financial year 2017/18 was £8915. This amount was doubled by the DFE with effect from September 2017, as a result an additional sum (pro-rata to the end of March 2018) is £5386, with the total amount of allocation for the financial year now being £14301.

The money has been targeted in the following ways:

Specific action taken	Impact and review
<p>Enrolment with Team Activ (Barnsley), to include; Participation in and coordination of various sports' events for pupils throughout the year.</p> <p>Dedicated sports coach to provide specialist provision for all key stage 1 and 2 year groups , focus support in; physical literacy, cricket and athletics (£6072)</p>	<p>The support from Team Activ (36 weeks) encompasses a morning session for each cohort/class teacher to work on a specific area (of development) for each teacher. This impacts on their personal skills and knowledge of a range of sports and establishes a secure and consistent approach to pedagogical development. As a result teaching and learning has improved and staff are showing an increased confidence in their abilities to deliver quality coaching . Such lessons also give the pupils exposure to a professional sports' coach – to advise and instruct on elements of body control and physical growth.</p> <p>Brierley has access to a number of inter-school sports competitions. This impacts on the children's experiences of competitive sports as well as the responsibility of representing school. It also provides a range of different activities for different age ranges. Such opportunities are successful in raising pupils' awareness and skills of non-traditional school sports.</p>
<p>Out of school sports clubs for both key stages organised by Miss Cole and Miss Tate (£800)</p>	<p>Over 137 'out of school' club sessions have been delivered for both key stages combined, encouraging pupils to participate in activities beyond the National Curriculum expectation. This has boosted confidence, raised skill levels and promoted more healthy lifestyles</p>

<p>To provide transport to and from inter-school sports' competitions Miss Cole additional hours – competitions (£1000)</p>	<p>A focus for school improvement has been to increase the participation of competitive sports for all age groups. Over the past year all of our pupils have had the opportunity to join in with many competitions over a broad range of activities. Pupils are encouraged to go out to win during these events and always give their best – we have had outstanding success in all areas. Pupils also experience the disappointment of losing and are able to show good sportsmanship and tolerance and acceptance of outcomes that are not always as favourable as they would want. Brierley has achieved the nationally recognised gold standard for school games for the past three years.</p>
<p>A contribution to swimming tuition for Y4 pupils (£1000)</p>	<p>Fund an additional swimming instructor to reduce the group size, providing a more individualised programme of support. Our 15 week course has impacted on the confidence and progress of all pupils. This year out of 30 pupils the following awards were achieved; Confidence x 7 School x 3 Curriculum x 15 Challenge x 5 The outcome of such provision has seen an increased proportion of pupils being able to swim 25m when compared with the start of the programme (26.7% v 66.7%)</p>
<p>A contribution towards the cost of transport to Metrodome (£800)</p>	<p>This links with the contribution to our swimming programme covered above. Attendance at the Metrodome during these times is high with an average percentage attendance of 96%+. This impacts on more positive outcomes for the pupils</p>
<p>Additional Sports resources (£800)</p> <p>Additional grant from September 2017 (£3829)</p>	<p>Additional small apparatus /resources have been purchased, eg rugby balls, tennis and footballs and nets. As a result children are more fully engaged with structured physical activities during lunch and break times.</p> <p>In order to establish the sustainability of our provision additional resources were identified in each key stage. This has impacted on the quality of support, pupil motivation and increased the range of sporting opportunities – eg tennis and basket ball at key stage 2 and a more diverse range of skills being delivered at key stage 1</p>

Our focus for this current academic year has been to continue to further develop a model of quality and sustainable sports' provision both in and beyond national curriculum expectations. This has resulted in increased opportunities for all age groups and addressed specific areas where the school's provision in teaching and learning is less strong.

As a 'healthy school' such activities have raised the profile of leading a healthy lifestyle and impacted on other areas of the curriculum.
